The **NaviGaitor SUMMIT** is a winner when it comes to compliance, comfort, durability and value. Full Protection combined with the lightweight sole and the Navi -Sorb™ comfort innersole make it a brilliant all-rounder: The comfort of the NaviGaitor SUMMIT is enjoyed in Agriculture, Construction, general industry and logistics. Don't turn down complaints about cheap uncomfortable footwear! It is critical that HR departments recognise the problems that are caused in later life by unsuitable footwear worn today. Not just another pair of steel toe cap boots. NaviGaitor offers complete foot protection!

# NO ORDINARY CHUKKA BOOT

*Redefining comfort™*

## WHY IS NAVIGAITOR DIFFERENT?

- Navigaitor safety footwear is designed to provide comfort to the wearer's feet throughout the day. This is due to **NAVI-SORB™** Technology within the sole construction
- **NAVI-SORB™** absorbs up to 85% of impact shock before it enters the body and helps to protect the entire body from damage due to dangerous shockwaves
- **NAVI-SORB™** naturally cradles the foot — enhancing the heel's impact absorbing fat pad
- **NAVI-SORB™** Anti-fatigue — doesn't flatten and lose its cushion performance over time

ISO 20345:2011 CE CERTIFIED

Stainless steel toe cap above 200 joules

Water resistant upper genuine leather

Slip resistant PU double density outsole

Petrol & chemical resistant sole

Pierce resistant inner sole to 1100 joules

Oil resistant sole

Dual Density PU shock absorption

## THE RTP (REFLEXOLOGY TECHNOLOGY PIMPLE):

### What is the pimple on the heel?

It has reflexology technology is designed to stimulate the sciatic nerve. Although there is no long term proof, wearers tell us that their feet feel better after a days work in Navigaitor Summit Boots than any other boot they have owned before.

**NAVI-SORB™**

Reflexology Technology Pimple

Anti-abrasion supported counter part

Superior comfort insole

Shock absorption midsole

Stainless steel midsole plate above 1100 newtons
